

What If Your Personal Growth Is Part of a Cosmic Process?

Every decision shapes who we become. But what if our spiritual growth also contributes to **the growth of the Supreme Being?**

A Remarkable Teaching

The Urantia Book teaches that the **growth of mortal ascenders resembles the growth of the Supreme**. They are not identical, but they are deeply connected. This idea reveals the **cosmic meaning of human experience**.

Urantia Reference

Urantia Book 117:3.6

Man's evolution, though creature-based, in some ways resembles the **growth of the Supreme**.

This introduces a profound relationship between **personal growth and cosmic evolution**.

The Beginning of Mortal Growth

Human beings begin life:

material

incomplete

spiritually immature

Yet each person contains a **divine fragment of the Father**, making spiritual ascent possible.

The Process of Ascending Growth

Mortal growth involves cooperation between:

human moral decisions

**the guidance of the
Thought Adjuster**

**the development of the
morontia soul.**

Through these, personality gradually becomes **more unified and spiritualized.**

The Emergence of the Soul

When human will aligns with divine guidance, the **morontia soul emerges**.

The soul then grows by:

-  **integrating experience**
-  **developing character**
-  **unifying personality.**

The Growth of the Supreme

While individuals grow personally, the **Supreme grows universally**.

The Supreme evolves through the collective experiences of creatures across time and space.

The Parallel

The similarity becomes clear:

Mortals

unify **personal experience**

The Supreme

unifies **universe experience**

Both processes involve **experiential growth and integration.**

Meaning of This Teaching

The revelators explain the Supreme to show that evolution has **spiritual significance**.

Our struggles, choices, and growth contribute to the **cosmic experience of the universe**.

Closing Reflection

Human growth and the growth of the Supreme are connected.

As we seek truth, choose goodness, and grow spiritually, **our becoming participates in the universe's becoming.**
